

ANDY LE QUACH

WEB DEVELOPER

I am a confident student with experience in management and teamwork. In working environments I am savvy and function well in stressful situations.

I am ready for anything in web development, I am still new to the game.

Because of past experience, I know the importance of effective communication and work well in teams.

Lastly I am very flexible and good at adapting my priorities.

Feel free to contact me **anytime**, email or phone.
I have a lot of time at the moment because of Covid-19.

EXPERIENCE

Jan 2018 - April 2018
DigitalGuest

MULTIMEDIA INTERN

At my internship at DigitalGuest I mainly worked with multimedia. I had a lot of focus on the website of the company, but also solved other tasks including graphic design, and a bit of JavaScript code for the developer team.

2013 - 2018
McDonald's Tilst

SHIFT MANAGER

My time working at McDonald's taught me a lot about working in and managing big teams, leadership, optimizing and what a good working environment should look like.

EDUCATION

2019 - 2020
Business Academy
Aarhus

BACHELOR IN WEB DEVELOPMENT

As a top-up on the AP degree in Multimedia design, I am currently getting a Bachelor degree in Web development. Here we are taught web design, web publishing, web programming, database management, user testing, etc.

Aug 2018 - Dec 2018
Humber College

DIGITAL COMMUNICATIONS

This was a part of the Multimedia design programme where I chose to go abroad to Toronto, Canada. Here I was put in the digital communication programme, which was the equivalent to Multimedia design.

2017 - 2019
Business Academy
Aarhus

AP DEGREE, MULTIMEDIA DESIGN

At the Multimedia design program, we learned about HTML, CSS and JavaScript, together with content creation, web design, UX, SoMe strategies, User testing, prototyping and SEO.
